THE 1979 FLEDGLING IS DEDICATED TO

"POP" WARNER

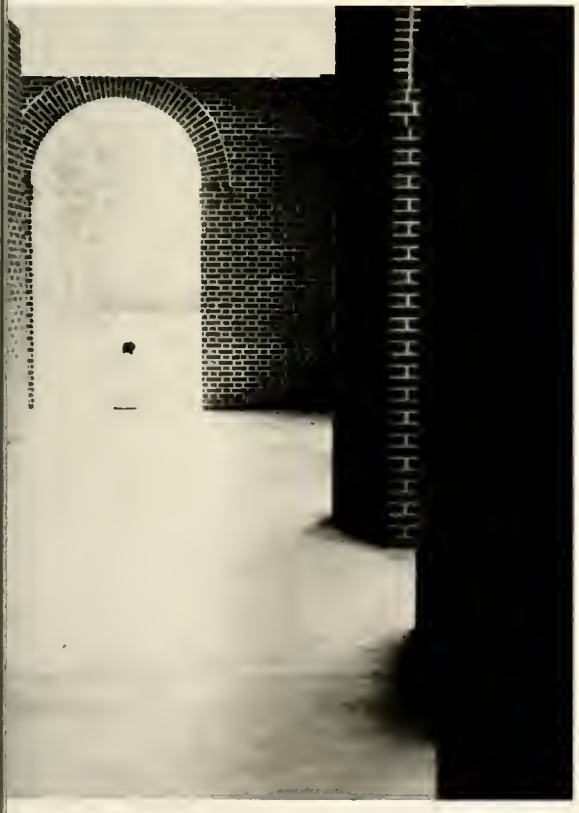
In 1969, Wilmington College became a university and David "Pop" Warner, Jr. became Intramurals Director. The entire program consisted of one sport — basketball. Over the next ten years, "Pop" Warner expanded his program to include archery, soccer, volleyball, swimming and many other sports.

It was as Director of College Relations that "Pop" first came to the college in 1965. He helped to establish APO, the service fraternity, on campus. A graduate of Springfield College, where basketball was invented, "Pop" has often served as the official scorer during home basketball games.

But, these accomplishments are not the only reasons that "Pop" is a valuable member of the faculty. His incredible rapport with students is seldom matched. When students refer to him as "Pop", they do so with love and respect.

So, it is with great pleasure that we dedicate the 1979 Fledgling to "Pop" Warner.

Locked in our college routine, we seldom notice the passing days. Haurs spent in study or a quiet walk down the beach are soon fargotten as we rush to class. But, when the rush is over, we realize that . . .



TIME PASSES BUT
THE MEMORIES REMAIN.

A University campus never stands still. It is farever expanding, ever growing seeking to serve the needs af the students.

In 1961, Wilmington College consisted of three buildings; Haggard Hall, the Alderman Administration Building and the Hinton James Student Services Building. Since then, Wilmington College has grown into a University and has added sixteen more buildings to the campus.

In 1969 the William Madisan Randall Library became an important addition to the campus. The Sarah Grahamn Keenan Auditorium followed in 1970. The Cafeteria and Galloway Hall, the first dormitory, were added in 1971. The latest addition to the campus was completed this year. The new building houses the English, History, Math, and Modern Language Departments. But, the growth has not stopped there. Already, there are tentative plans for a new student service building.

GRADUATION
MAY 12, 1979

Despite heated controversy and extremely hot gym, commencement was held May 12, 1979. Recognizing only those students with honors, the ceremony was followed by department receptions where the students received their diplomas.
Many students complained that the receptions were unorganized, informal and crowded. Although graduating seniors were plagued by inconveniences, they will look back on this day with fond remembrances.

Babcock & Wilcox

For more than a century, the name Babcock & Wilcox has been synonymous with quality. Quality in design, materials, workmanship and installation produces a product on which B&W customers can depend.

B&W quality is an important reason why electric utilities and the pulp and paper, marine, petroleum, chemical and other major industries come to B&W for power generation equipment.
